WFG Profiles:

Field Leadership:

**Dina Fliss**

Brookfield, Wisconsin

Previous Career: Financial Services

"Every [World Financial Group](#) associate is assigned a code number when they come on board. A computer tracks the production to that code number and doesn't discern whether you are male or female, young or old, black or white. You do the production, you get paid and earn the promotion. Isn't that the level playing field every person dreams of competing on?"

**Yvonne Mei**

Alviso, California

Previous Career: Flight Attendant

"When I first came to [WFG](#), I had no experience and no capital to start a business. I was working as a flight attendant and my husband was working three jobs. Now my husband works with me full time. As business owners, we don't have to worry about being laid off or salary cuts. We know with hard work we can continue having a bright future."

**Penney Ooi**

Santa Clara, California

Previous Career: Loan Officer

"I've always been a person who saw what they wanted in life and set out to achieve it. I grew up in Malaysia but came to the United States because I didn't want the government or society telling me what I could be. When I worked in the mortgage industry and wanted to switch to financial services, I couldn't find a company to sponsor me. Then I found [World Financial Group](#). At [WFG](#), I am in a nurturing environment where people encourage you and help you to succeed. With hard work and mentoring from both women and men, I was able to reach the highest field promotion level in the company. I love WFG because here everyone has the same opportunity to win."

**Teresa Tang-Wong**

Toronto, Ontario

Previous Career: Financial Services

"Before I joined [World Financial Group](#), I was in the financial services industry for more than 16 years. In those days, I was really busy and pretty successful, but I never had much time to spend with my family. Now as a [WFG](#) business owner, I can manage my time between family and work more successfully. All of my children are my business partners and I am in control of my own schedule. My family is together most of the time and we can have both company time and family time. That just makes our family relationship stronger."

**Jaime Villalobos**

Agoura Hills, California

Previous Career: Health Club Manager

"[World Financial Group](#) is an extraordinary business opportunity for all people, male or female, but especially for women. WFG gives women the ability to become business owners without having to produce large sums of capital to get

their businesses off the ground. [WFG](#) also gives women – married women, single moms or single women – the opportunity to build a career around their lives. And finally, at [WFG](#) there is no ceiling, glass or otherwise, that can stop any woman from becoming the CEO of her very own profitable organization."

**Liz Zetazate**

Concord, Ontario

Previous Career: Financial Underwriter

"In a typical company, especially for women, the chance for advancement depends on if a position is available, how long you've been with the company, and if the hard work you have done is sufficient enough to qualify you for the position. In [World Financial Group](#), the position that anyone desires is achievable through hard work. There is always room for advancement. The sky's the limit."

**Agnes Miranda**

Concord, Ontario

Previous Career: Financial Services

"I've met some of my closest friends in this business. We work with each other, we learn from each other, we believe in each other and we have great respect for each other. When someone has a bad day, there are people on the team who will encourage you and help you get through it. This is a company that believes in you."

**Marcy Blochowiak**

Atlanta, Georgia

Previous Career: Flight Attendant

"When I first learned about this business opportunity, I was a flight attendant with a major airline. Initially, I thought, 'Who would ever buy insurance and financial services from a flight attendant?' But [World Financial Group](#) taught me to look beyond labels and to tap into my potential to learn the financial services business and change my life.

My world is different now, personally and professionally. I've built a great team of people and have nine teammates earning more than \$100,000. [World Financial Group](#) is not only a great business opportunity but a great personal development program."

**Vivienne Schleu**

Boca Raton, Florida

Previous Career: Real Estate, CPA

"My father passed away at age 54 and left my mother a widow at the age of 51. He rarely shared financial responsibilities with her. She did not work outside of the home. It took her years to figure out how to settle his estate and run her own financial life. She was completely unprepared for it. I am happy to have a career that will help other women not be in that same position."
